ACOUSTIC ENERGY

1SERIES

AE 101

Stand Mount/Book Shelf

Tweeter: 28mm AE custom fabric dome

Mid/Bass Drivers: 110mm anodised aluminium cones

Power Handling: 150 Watts RMS

Frequency Response: 48Hz-32kHz (+/- 3dB)

Sensitivity: 87dB

Impedance: 8ohm (6ohm minimum)

Cabinet: Multi-braced MDF with low turbulence slot ports

Weight: 6kg (each)

Size: 300 x 185 x 250mm (HxWxD)

AE 103

Floorstander

Tweeter: 28mm AE custom fabric dome

Mid/Bass Drivers: 110mm anodised aluminium cones

Power Handling: 175 Watts RMS

Frequency Response: 40Hz-32kHz (+/- 3dB)

Sensitivity: 89dB

Impedance: 8ohm (6ohm minimum)

Cabinet: Multi-braced MDF with low turbulence slot ports

Weight: 14kg (each)

Size: 850 x 185 x 280mm (HxWxD)

AE 107

Centre

Tweeter: 28mm AE custom fabric dome

Mid/Bass Drivers: 110mm anodised aluminium cones

Power Handling: 175 Watts RMS

Frequency Response: 45Hz-32kHz (+/- 3dB)

Sensitivity: 88dB

Impedance: 8ohm (6ohm minimum)

Cabinet: Multi-braced MDF with low turbulence slot ports

Weight: 9kg (each)

Size: 185 x 450 x 260mm (HxWxD)

AE 108

Subwoofer

Mid/Bass Drivers: 200mm recycled pulp fibre cone

Power Handling: Active 150 Watts

Frequency Response: 38Hz-120Hz (+/- 3dB)

Cabinet: Multi-braced, sealed 18mm MDF box

Weight: 10kg (each)

Size: 22 Litres

Remote Control: Infra-red, volume level

Available in Black Ash, Walnut or High Gloss White Vinyl

We reserve the right to alter any of the specifications without notice.

101

AE 101

This compact stand-mount loudspeaker owes its heritage directly to the more affluent AE 301, delivering an energetic and open sound from a very small reflex loaded enclosure. The AE 101 has been designed for flexible room placement, whether mounted on stands or shelving the sound remains crisp, dynamic and spacious. Sumptuous finish, complimentary magnetic mount grilles and the bijou dimensions allow the AE 101s to melt discretely into any room decor.

AE 103

Behind its angled baffle and magnetic grille, the AE 103 floorstanding loudspeaker is a front ported design that allows for close to wall placement if desired, making it easier and less fussy to fit within your decor. The result is a loudspeaker with the power and depth of a large floorstanding design, yet with a smaller overall size and more compact footprint than most stand mounted speakers.

103

107

AE 107

For home cinema and multi-channel music systems, the AE 107 is a two way horizontal mount loudspeaker designed for centre channel duties. The AE 107 delivers exceptional articulation throughout the vocal and dialogue range whilst the front slot-port reflex loading offers exceptional bass performance and the most flexible positioning. The unit can be placed on a shelf, wall mounted or sited within a cabinet (with the doors open in use) without adversely affecting the sound.

108

AE 108

The AE108 is a compact, yet extremely powerful active sub-bass system, designed to be at its very best when used in pairs. Pairing subwoofers offers much greater control over room boom and standing waves and delivers greater dynamic punch than a single unit. Standing at just 28 cm square in size, the AE 108 is our most compact subwoofer to date. The AE 108 packs features such as a remote control and extra-large floor spikes with innovative high destiny rubber cups for hard floors.
