REFERENCE SERIES  
**MKIII**

Sublime Expression...

Stunning Elegance...

Special Edition.

# (((AE)))

## ACOUSTIC ENERGY

The AE1 MKIII SE is a very special speaker. Designed to make use of the advanced mechanical technology from the award-winning AE1 MKIII (Steel-lined cabinet, Aluminium baffle and signature Acoustic Energy alloy bass driver) with a completely new, cost-no-object crossover network to help offer breathtaking musicality and transparency.

Simplicity is the key. With half the number of crossover components of the original MKIII's, the SE's put less between the source material and the music you hear. Power-handling and sensitivity are improved, and, to put the icing on the cake - why not specify them in the colour of YOUR choice. After all, the better they blend into your home environment the less there is to distract from what matters most - the music.

### Technical Specifications

- Power handling: 200watts RMS
- Sensitivity: 87.5dB per Watt/Metre
- Frequency Response: 45Hz-40kHz +/- 3dB
- Impedance: 8 Ohms
- Crossover: Ultra-short signal path, 2nd order
- Bass/Mid driver: 110mm Pure-piston alloy cone
- H/F driver: 32mm Ring radiator
- Cabinet: 12mm Braced MDF with 5mm steel-plate damping

### Dimensions

- HxWxD: 310 x 185 x 250mm
- Weight (ex packaging): 11kg per speaker
